The chemicals used for Aquatic Nuisance Control are registered by the U.S. Environmental Protection Agency and the Michigan Department of Agriculture. The potential for damage to fish and other non-target organisms is minimal provided that the product is used as directed on the product label and the permit. To minimize the possible effects on health and the environment, the treated water is restricted for the above purposes.

Got Muck?

PLM MD (Muck Digestion) Pellets are a combination of natural beneficial bacteria, enzymes, and vitamins that stimulate the biological activity at your lake or pond bottom. This stimulation allows the bacteria to feed on the organic sediment, therefore reducing the muck levels. PLM MD Pellets are easily applied by anyone once a month, when the water is above 55 degrees. Commercial applications are available for larger jobs.

PLM MD Pellets come in 10 and 30 pound buckets or a 50 pound bag

2018 TENTATIVE TREATMENT SCHEDULE

Morley Mill Pond has been scheduled for the **week** of:

Date	Description	Date	Description
5/28/2018	Survey, Weed & Algae Treatment	8/6/2018	Survey, Weed & Algae Treatment
6/4/2018	Survey, Weed & Algae Treatment	9/3/2018	AVAS Survey
7/9/2018	Survey, Weed & Algae Treatment		

DEQ permitting restrictions, national holidays, and/or weather conditions may influence the timing of treatments throughout the 2018 season. PLM treats each lake according to a schedule or season plan, established with the cooperation of your lake association, lake board or residents on the lake. The treatment schedule is approximate. Please watch your shoreline for the posting of the 8.5x11 inch, yellow or green signs. The signs will indicate the date of the treatment, the products used, and any restrictions on the use of treated water for swimming, watering lawns, etc.

This is Michigan Law!!!

Your association must forward this to all riparians! Tentative treatment dates and notice of products to be applied must given to all riparians not more than 45 days before and at least seven days prior to the initial treatment.
